Navigation changes on Lake Washington along SR 520

**UPDATE:** Both navigation channels open to boaters

- **A West navigation channel**
- **B Floating bridge**
- **C East navigation channel**

Height shown in graphic is average. Due to seasonal lake level changes, the west navigation channel height fluctuates between 42 feet and 49 feet.

Due to seasonal lake level changes, the east navigation channel height fluctuates between 65 feet and 70 feet.
